

NORTH AMERICAN MILLERS ASSOCIATION

ANTITRUST STATEMENT

As a prologue to our meeting, please keep in mind that there are numerous state and federal laws that absolutely prohibit the exchange of information among competitors regarding price, refusals to deal, or agreements to proceed in certain anti-competitive respects, and that no such exchange of this information is either sanctioned by NAMA, nor will be tolerated, during our meeting. This is a very serious consideration and no deviation from this policy will be allowed. Your cooperation in this matter will be appreciated. We ask you not to refer to any company specific names (except your own) in the example that you may give as illustrations during your discussions. There will be no specific discussion concerning price, profits, commission or any other cost components and elements.
